Any equipment must be purchased via valid credit or debit card at the time of purchase. By providing a valid credit or debit card, Customer is expressly authorising any equipment charges and fees to be charged to such payment card. Recurring charges (such as monthly phone bills for your services) are billed by Direct Debit associated with your Account. Credit and debit card payments are subject to the approval of the card issuer, and The National Business Network Ltd will not be liable in any way if a card issuer refuses to accept a credit or debit card for any reason. The National Business Network Ltd's acceptance of late or partial payments (regardless of how they are marked or designated (including without limitation as 'Paid in Full', 'Accord and Satisfaction', or similarly)) will not waive, limit, or prejudice in any way The National Business Network Ltd's rights to collect any amount due. Upon resolution, Customer must pay any unpaid amounts within thirty (30) days. Any amounts that are found to be in error resulting in an overpayment by the Customer will be applied as a billing credit against future charges. 6 Emergency Services

The National Business Network Ltd’s policy governing the provision of emergency services accessed via the Services is:

A. The National Business Network Ltd provides access to emergency calling services, allowing most The National Business Network Ltd users to access either 999/112 emergency services. The National Business Network Ltd Office users with a Digital Line, using IP Desk Phones or Softphones, can dial 999/112 emergency services directly from their IP Desk Phones or Softphone. **VIRTUAL EXTENSIONS AND MOBILE USERS WITHOUT A DIGITAL LINE CANNOT COMPLETE 999/112 CALLS.**

Emergency calling services work differently than you may have experienced using traditional wireline or wireless telephones. Your access may differ depending on your location or the device you are using.

B. Registering Your Location

You must register the address of the physical location where you will use each Digital Line with The National Business Network Ltd immediately upon activation of your End Point. This is your Registered Address. You or your Account Administrator must accurately register each individual line through your Digital Line Settings or the Administrative Portal. You must use The National Business Network Ltd voice services only at the Registered Address provided for the applicable Digital Line. **If you move a registered device, you must immediately update the Registered Address with the new physical location of the device with The National Business Network Ltd through the Administrative Portal or in your account settings. If you do not update the Registered Address, any 999/112 emergency services calls made from the device may be sent to the wrong emergency response centre and will not transmit your current location information to emergency responders, delaying emergency assistance to you.** It may take up to several hours for the address update to take effect. Customers with more than one Digital Line are solely responsible for ensuring that an accurate and up-to-date Registered Address is maintained for each Digital Line, and that their End Users are aware of how the Registered Address can be changed.

C. Service limitations

The National Business Network Ltd 999/112 emergency service dialling will not function (i) in the event of an Internet or power outage; (ii) if your broadband, ISP, or The National Business Network Ltd Service is terminated; and (iii), with respect to only the The National Business Network Ltd Mobile Application, if you do not have mobile service, as the The National Business Network Ltd Mobile Application cannot send emergency calls over Wi-Fi access. It is possible that network congestion may delay or prevent completion of any 999/112 emergency services call. You will not be able to complete a 999/112 emergency services call if you move to a physical location outside the country in which your Digital Line is provided.

Users uncomfortable with any of these limitations should use an alternate means of reaching 999/112 emergency services.

D. How it Works

When you dial 999/112 emergency services using voice services from The National Business Network Ltd, the The National Business Network Ltd phone number and the Registered Address you have provided is sent to the local emergency centre serving your location. In some areas, emergency operators have access to this information; however, in other areas the emergency operator answering the call may not be able to see your The National Business Network Ltd telephone number or your Registered Address. You should always be prepared to provide the emergency operator with your The National Business Network Ltd telephone number and Registered Address in case the call is dropped or disconnected. If you are unable to speak, the emergency operator may not be able to send help to your location and/or call you back should the call be disconnected. The National Business Network Ltd does not control whether or not the emergency operator receives your telephone number and Registered Address.

In some cases, 999/112 emergency services calls dialled from your The National Business Network Ltd Office device cannot be directed to the local emergency response centre, and are

instead directed to a non-location based Emergency Call Centre (the “ECC”). That might happen if there is a problem validating a Registered Address, if the Registered Address is an international location, or if the Registered Address is in an area that is not covered by the landline 999/112 emergency services network. 999/112 emergency services calls that are directed to the ECC may not include your The National Business Network Ltd telephone number or your registered address. Trained operators at the ECC will request your name, location, and telephone number and attempt to reach emergency responders in your local area. Until you give the operator your phone number, and location, he/she may not be able to call you back or dispatch help to your location if the call is dropped or disconnected.

E. Mobile Applications

Calls to 999/112 emergency services placed through the The National Business Network Ltd Mobile Application on a smartphone are automatically routed to the native dialler on the smartphone, and the call will be handled by your wireless service provider if wireless service is available. If your wireless service is unavailable, the 999/112 emergency services call cannot be placed. The The National Business Network Ltd Mobile Application cannot place emergency calls over Wi-Fi access. Emergency dialling is not available through the The National Business Network Ltd Mobile Application on tablets or other mobile devices without a native phone dialler and a wireless service plan.

F. Notification of Employees, Guests, or Other Users

Customers must notify any employees, contractors, guests, or persons who may place calls using the Services or may be present at the physical location where the Services may be used, of the limitations of The National Business Network Ltd 999/112 emergency service from your The National Business Network Ltd IP phone, other equipment, or the The National Business Network Ltd Softphone. Where required, Customer must affix a The National Business Network Ltd-provided sticker warning that 999/112 emergency services may be limited or unavailable in a readily visible place on each piece of equipment that might be used to access or use the Services.

G. Disclaimer of Liability for Emergency Call Response

Your use, and use by your employees, guests and other third parties, of The National Business Network Ltd’s 999/112 emergency services dialling is subject to the limitations described herein. The availability of certain features, such as transmission of a Registered Address or your The National Business Network Ltd telephone number, depends on whether local emergency response centres support those features, and other factors outside of The National Business Network Ltd’s control. The National Business Network Ltd relies on qualified third parties to assist us in routing 999/112 emergency services calls and text messages to local emergency response centres and to the ECC. The National Business Network Ltd does not have control over local emergency response centres, the ECC, emergency responders, or other third parties. The National Business Network Ltd disclaims all responsibility for the conduct of local emergency response centres, the ECC, third parties engaged by Customer to facilitate address updates, and all other third parties involved in the provision of emergency response services. To the extent permitted by applicable Law, you hereby release, discharge, and hold harmless The National Business Network Ltd from and against any and all liability relating to or arising from any acts or omissions of such third parties or other third parties involved in the handling of or response to any emergency or

999/112 emergency services call. Customer indemnifies and holds harmless The National Business Network Ltd, and any third-party provider(s) from any and all third-party claims, losses, damages, fines, or penalties arising out of: (i) Customer or its End User's provision to The National Business Network Ltd of incorrect information, including physical addresses, or failure to update a Registered Address; (ii) Customer's failure to properly notify any person who may place calls using the Services of the 999/112 emergency services limitations; or (iii) the absence, failure, or outage of emergency service dialling using the Services for any reason; and (iv) the inability of any End User to be able to dial 999/112 or access emergency service personnel for any reason.

The porting of phone numbers into or out of an Account requires Customer's provision

of specific and detailed information to The National Business Network Ltd and/or other service providers, and procedures imposed by other service providers or The National Business Network Ltd in order to comply with law and industry standards. Therefore, the completion of any number port request may depend on factors outside of The National Business Network Ltd's control, including delays caused by Customer and/or other service providers.

D. Unauthorised Port Outs

The National Business Network Ltd is required by law to comply with any valid porting request. Phone numbers may be ported out from an Account due to acts or omissions of third parties, and it may be difficult or impossible for The National Business Network Ltd to: (i) prevent such port-outs; (ii) retrieve numbers ported out of an Account; or (iii) port such numbers back into an Account. Customer is solely responsible for working with its new third-party provider to port out any numbers prior to termination or cancellation of Customer's Account or Services, or any individual line.

H. Number Publication by Customer
